The Healing Power of Love

We come from love, we are made of love, and we will return to love.

This day will focus on the power of love to heal us physically, emotionally, and spiritually. Our bodies and our spirits are changed by love. Topics include savoring memories of love, healing relationships with the deceased so that we can continue to give and receive love with them, and how to forgive in a way that is loving of ourselves, as well as others. Presentations include simple prayer and healing processes.
